Do you have any advice/comments concerning activities and organisation?

- No, everything was great.
- During the Erasmus project in Croatia, we organised and participated in a variety of activities that were both educational and enjoyable. We carried out workshops on wine and honey production, as well as a practical session on how to make organic lip balm. These activities were very well structured and helped us develop new skills, learn about local traditions, and collaborate effectively as a group. Overall, the organisation was smooth, the activities were engaging, and the experience was enriching both personally.
- No, it was very fun and good
